LOCATION OF NURSERIES

One mile from the "Square" at Exeter, on High Street, the Hampton road,—the main highway from Manchester to the beach. Six miles from Hampton and the Lafayette Highway (running from Boston to Portland, via Newburyport and Portsmouth). 32 miles from Manchester, 14 miles from Portsmouth, 10 miles from Amesbury, 18 miles from Haverhill, and 20 miles from Dover.

CASH DISCOUNT

When cash in full accompanies order, a 10% discount may be taken on Spring orders received before March 24, and a 5% discount on orders received before April 7th. 31

25% of the amount should accompany all orders, the balance to be sent at shipping time, otherwise shipment will be C. O. D.

Prices quoted are for stock at the nurseries or delivered to our railroad station. There is no charge for packing.

We are always ready and willing to correct errors on our part, but we are at no time responsible for any amount greater than the original sales price. All claims for damage in transit must be made to the transportation company. Our responsibility ceases on delivery to the carrier.

We book all orders with the understanding that same shall be void should injury befall stock from fire, error in count, or other causes beyond our control.

TIME OF PLANTING

All stock listed in this catalog may be transplanted in the Spring. Peonies, Irises, and Evergreens may also be transplanted in August or later.

Perennials and pot-grown strawberry plants may also be moved in September or later.

Apple Trees, Small Fruits, Grape-Vines, and most varieties of Shade Trees, Shrubs, and Vines may also be transplanted in October or November.

The following

CERTIFICATE OF INSPECTION

Will accompany all shipments made from our Nurseries:—

STATE OF NEW HAMPSHIRE

Department of Agriculture

Division of Nursery Inspection

This certifies that inspection of the nursery of Granite State Nurseries, Inc., at Exeter, N. H., was completed.....

The attached stock was included within the above inspection and is apparently free from dangerous insects or diseases.

(Signed) W. C. O'KANE,

State Nursery Inspector.

SUNDAYS

We do not make a practice of filling orders on Sunday. As an accommodation, however, we are glad to get up orders on Saturday which may, by arrangement, be called for on Sunday. Our hours of business are: Week days, 7 A. M. to 5 P. M. Visitors are always welcome.

MANAGER'S MESSAGE

JAMES A. TUFTS, Jr.
Manager

AGAIN WE SAY: "GREETINGS TO ALL"

We want our customers to know how much we appreciate the opportunity to serve them. We are grateful for the continued patronage of our old friends and we welcome the chance to make new friends. To please our customers, both with the quality of our goods and our service, is our constant endeavor. Should anything which we send you fail to be satisfactory on its arrival, please advise us at once so that we may have the opportunity of making it satisfactory at that time.

Remember: "When you are pleased—we are pleased."

Many of our friends have followed with interest the snap-shots of the children which have appeared on this page. Here we present a family group including Mrs. Tufts. The twins, Kenneth and Charles are on the settee with Mrs. Tufts and Arthur, and Eleanor and Ralph are seated in the foreground.

FRUIT TREES

In the Annual Outlook Report, dated February 2, 1931, the U. S. Department of Agriculture says, "Market prospects for apples justify the maintenance of the present number of trees in Commercial orchards, and possibly some increase." Apparently the Department feels that the prices in 1930 were the result of an unusually heavy crop combined with general business depression.

Last year we told you about one of our customers who planted 668 of our trees and only lost three. This year we have a better record, only one tree lost out of 625 on one order. And the 624, or 99.8 per cent, made a very satisfactory growth. If our trees can do this for one man they can for another—a very good reason for placing your order with us, for New England-grown trees.

We strongly urge planting only the 5-7 ft. trees, 11/16 in. in diameter, as these are strong, vigorous trees which have never been stunted and which will surpass any of the lighter grades of trees.

APPLES

FRUIT TREES BY MAIL

With the exception of peach trees, only Dwarf Fruit Trees can be sent by mail.

GRAPE-VINES

Plant on light loamy to sandy soils and in sunny locations. Train on trellis or southern side of fence, barn, or house. Profitable and easy to raise.

2 Yr. Vines, 30c each; \$1.25 for 5, except as noted.

On orders for 5 or more grape vines, we pay the postage except on C. O. D. shipments. For less than 5 vines, add 5c per vine for postage.

BLUE GRAPES

Moore's Early. One of the very best for New England.
Worden. Similar to Concord but larger, earlier, better.
Concord. Still a desirable variety and a great favorite.
Campbell's Early. Large and handsome.

RED GRAPES

Brighton. Bunch and berry, large. Quality fine.
Delaware. Small, fine flavor, popular.

WHITE GRAPES

Niagara. Bunch and berry, large. Fine flavor.
Green Mountain. Very hardy, desirable variety. 50c each.

RASPBERRIES

CHIEF

\$1.50 per doz.; \$2.50 for 25; \$8.00 for 100.

5c per dozen additional if by mail.

A new variety originated by the Minnesota Fruit Breeding Farm, originators of Latham. This variety has been under test a number of years, and it has considerably out-yielded Latham the last two years. It is a trifle smaller than Latham, but a slightly better berry and somewhat firmer. Ripens nearly a week earlier and is a good variety to prolong the season. Chief is said to be the hardiest of the desirable new varieties.

G—LATHAM

We were one of the first nurseries to offer Latham Raspberry plants. The variety has been with us long enough now to demonstrate its superior hardiness and productivity without sacrifice of quality. We have no hesitation in recommending it for general plantnig.

12 plants for \$1.00; 25 for \$1.50; 100 for \$5.00; \$35.00 per 1000. 5c per dozen additional if by mail.

FOLLOWING VARIETIES

75c per doz.; \$1.25 for 25; \$3.50 for 100; \$30.00 per 1000.

5c per dozen additional if by mail.

L—St. Regis. In a class by itself. Bright red, fine quality. Very early. With good cultivation, produces fruit from June to October. Very profitable.

L—Cuthbert. The great commercial red raspberry. Good quality. Good cropper. Vigorous grower.

L—Herbert. Next to Latham in hardiness. Large red, good quality.

Plum-Farmer. The best black-cap. Early. Good for canning or preserving.

COLUMBIAN

\$1.50 per doz.; \$2.50 for 25; \$8.00 for 100.

5c per dozen additional if by mail.

Columbian. Purple. A very good cropper and one of the best for preserving. This variety does not spread and so can be kept under control very easily. We have found that tip-plants are not satisfactory so are offering **one-year transplants**. Raspberries are easy to raise, and they sell readily.

Set the plants 3 ft. apart in the row, and rows 5 ft. apart. Use chemical fertilizer, with possibly wood ashes, and keep well cultivated.

BLACKBERRIES

75c per doz.; \$1.25 for 25; \$4.00 for 100; \$35.00 per 1000

5c per dozen additional if by mail.

L—Snyder. Very hardy, productive variety. The best.

Eldorado. Excellent quality, productive. Fairly hardy.

Set plants same as raspberries, except that it is desirable to make the rows a little further apart.

Meaning of L and G Varieties for Maine

With the idea of helping those persons who are considering planting fruit trees or small fruits in Maine, we asked the Head of the Department of Horticulture at the University to indicate those varieties which he considered suitable for Maine planting. These we have marked as follows:

G—meaning suitable for General Use.

L—meaning suitable for Limited Use.

Let us know your preference and we will ship to suit your convenience.

DISTANCES OF PLANTING

Apples, 30-40 feet.

Peaches, 16-20 feet.

Pears, 20-25 feet.

Plums, 16-20 feet.

Quinces, 10-12 feet.

Grape-Vines, 8-12 feet.

Asparagus, 1½ x 3 feet.

Rhubarb, 1½ feet.

Sweet Cherries, 20-25 feet.

Sour Cherries, 16-20 feet.

Blackberries, 4x17 to 6x8 ft.

Red Raspberries, 3x5 feet.

Black Raspberries, 3x6 feet.

Strawberries, garden, 1-3 ft.,
field, 1-4 ft.

Dwarf Trees, 20 feet.

STRAWBERRIES

Every garden and farm should raise a good supply for use fresh and for canning. They make a very wonderful sauce or preserve. Incidentally, they are a profitable crop to raise for market. In planting, choose well-prepared ground, free from witch grass, and set the plants with the crown or bud just at the surface of the ground. Set the plants 1 ft. apart, with the rows at least 3 ft. apart.

Our plants are what we call **"Good-as-Grow"** Brand. Order early and set as early as possible. Please specify if we may substitute, if sold out of any variety ordered.

STANDARD VARIETIES

All perfect flowering, except Sample.

50c for 25 plants; 75c for 50; \$1.25 for 100; \$5.00 for 500; \$9.00 for 1000.

We pay postage on lots of 500 or less except on C. O. D. shipments.

Wilson. Early. An old variety of good flavor and quality. Very popular with some of our local growers.

Howard 17. For a good all-around variety for home or market, this has no superior. Among its many good qualities are the following: Earliness, good size, color, shape, shipping qualities, drought-resistance, productiveness, disease resistance, supply of pollen and length of fruiting season.

Senator Dunlap. Early to mid-season. A well-established old variety which gives an abundance of satisfaction.

Abington. Mid-season. Being deep-rooted, withstands drought. Large, bright red berries that ripen all over at once. Good for home or market.

First Quality. Mid-season. Very attractive berry, long and pointed. Sells very rapidly and is all that its name implies.

Brandywine. Late. A vigorous grower yielding high quality, large berries. An old favorite.

Sample. Late. Bright red and attractive. A very desirable variety, but must be planted with other varieties for pollenizing. (We recommend Abington).

Aroma. Late. Produces a big crop of extra large, good quality berries. Is very attractive and is a good variety to prolong the season.

Pearl. Very late. Yields large, dark red, firm berries.

Prices quoted here are for Spring of 1931, for April and May shipment.

For Fall Planting, we offer

Pot-Grown Howard 17

At \$1.50 per 25 by Parcel Post. \$5.00 per 100 by Express collect.

STRAWBERRY PLANTS

EVERBEARING VARIETIES

These are very desirable for the home garden or for the man or woman who has a good local market like a summer hotel. Their novelty has worn off, they have proved themselves worthy, and have come to stay.

65c for 25 plants; \$1.00 for 50; \$2.00 for 100.

\$8.00 for 500; \$15 for 1000 (Except Mastodon)

We Pay the Postage on lots of 500 or less except on C. O. D. shipments.

Progressive. Better quality than Mastodon. Dark Glossy red. Earliest spring berry and a good fruiter all season long. Cultivate and fertilize it well and it will pay for itself many times over.

Superb. Large, dark red. A good variety to grow in hills. Mulch well, and keep cultivated, and it will produce an abundance of big berries in the Spring and a good succession of them until freezing weather.

Mastodon. A new variety which produces a large quantity, both Spring and Fall, of big red berries. Best commercial Everbearer. \$1.00 for 25 plants; \$3.00 for 100; \$18.00 for 1000.

RHUBARB ROOTS, "PIE PLANT"

15c each; \$1.00 for 10. By mail, 20c each; \$1.25 for 10.

Linnaeus. The standard large, early variety for home or market.

Rhubarb is a good spring tonic. It is easy to raise, and any surplus may be canned for winter use as sauce or for pies.

ASPARAGUS ROOTS

Every gardener and farmer should raise his own asparagus, even if all he has is a few plants in a row alongside the vegetable garden, out of the way of the plow, but where the wheel-harrow can be run over them in early spring. Asparagus should be set only on well-prepared ground which is free from witch grass. Ordinarily we recommend spring planting for asparagus. We have, however, at least one customer-friend who has set the roots in the fall with good success, and we should like to hear from others who have tried fall-planting. Upon request we will gladly mail more complete instructions on starting an Asparagus Bed.

The best variety of all is Mary Washington. Consequently we are raising only this variety. Why not plant the best and why not let us fill your order with fresh-dug roots at reasonable prices?

1 Yr. Roots: 50c for 25; 75c for 50; \$1.50 for 100; \$6.00 for 500; \$10.00 for 1000.

By mail: 55c for 25 roots; 85c for 50; \$1.60 for 100; \$6.50 for 500.

2 Yr. Roots: 75c for 25; \$1.00 for 50; \$2.00 for 100; \$7.50 for 500; \$15.00 for 1000.

By mail: 80c for 25; \$1.10 for 50; \$2.10 for 100; \$8.00 for 500.

ROSES

For a number of years, we have been offering mainly Hybrid Perpetual roses, on account of their greater hardiness. Because of their shorter blooming period, however, we are removing some of these from our list and offering more Hybrid Teas. While the latter are not quite as hardy, we feel that as they bloom over such a longer period each summer they are worth running what little additional risk there is of winter injury. If our customers will take a little more care in protecting the bushes each fall by mounding the soil at least a foot high around each plant and putting on manure, straw, or evergreen boughs as extra protection, we feel sure they will get much more satisfaction. The bushes we offer below are strictly No. 1, 2 yr. plants which have been grown in the field, thus insuring vigor and maximum hardiness.

HYBRID TEAS

Price 75c each. Any 5 or more 60c each. Except as noted.

Rose bushes can be sent by Parcel Post. Add 5c per bush.

Gruss an Teplitz. A fragrant, scarlet, free-growing rose, which is in bloom nearly all summer.

Hadley. Velvety-crimson blooms. Very good for cutting.

Harrison Yellow. Old fashioned bright yellow. Shrubby grower. Do not prune, except to remove dead canes.

J. L. Mock. Brilliant pink. Very double.

Kaiserin Auguste Victoria. Most popular white Hybrid Tea. Very double and very fragrant.

Lady Hillingdon. Blooms continuously. Beautiful apricot-yellow. Probably the hardiest Tea rose.

Mme. Butterfly. Bright light pink, shaded with gold. A steady bloomer, particularly in the fall. Quite hardy.

Mme. Caroline Testout. Large, bright rose-pink. Very fragrant and one of the hardiest.

Ophelia. Long-pointed pearl-pink and gold buds. Pearly-white blooms which are produced in profusion.

Radiance, Pink. Produces abundance of brilliant rose-pink blooms of great fragrance and excellent form. Very popular and quite hardy.

Radiance, Red. Same good habits, blooming qualities, healthy foliage, and delightful fragrance as Pink Radiance, but brilliant cerise-red.

Souvenir de Claudius Pernet. Striking sun-flower yellow with large, glossy foliage. Quite hardy.

Talisman. A truly beautiful combination of brilliant orange-red buds and glowing yellow and copper shades in the blooms suffused with copper-red and orange rose shades. Especially good in spring and fall and surprisingly hardy. \$1.25 each. 3 for \$3.50. \$10.00 per 10.

Paul Neyron—(H. P.)

La Marne. Bright salmon rose.

Miss Edith Cavell. A profusion of brilliant crimson flowers in great abundance.

Orleans. Bright geranium red. Bushy plants covered with blossoms all season.

CHOICE PEONIES

Everybody loves peonies. They are perfectly hardy and require no special care or protection. Use a little lime on the soil before planting, if convenient, to make sure it is sweet. Fertilize with wood ashes and sheep manure in the spring, and with bone meal after flowering, or work 1 pint (1 lb.) of Vigoro around each plant when buds appear. See page 36.

On the basis of ten points as a perfect score, the American Peony Society, rates all our varieties, except one, at over seven points, and most of them over eight points.

September is the best month for transplanting, but plants may also be moved with good results in the spring, if moved early.

Our plants are strong three to five eye divisions.

For Parcel Post add 5c for each root; 4c each when six or more are ordered.

Special Offer—Three plants, one red, one pink, one white (our selection) for \$1.00, \$1.10 by mail.

GLADIOLAS

Any good garden soil will raise good "Glads" if you plant good bulbs. Set the bulbs stem-end up, from three to five inches apart and four to six inches deep, covering them gradually as the tops come up through the soil (as in planting asparagus roots). Deep planting prevents the flowers from falling over and makes staking unnecessary. At least fifty days are required from planting to blooming. For a succession of blooms, do not plant all bulbs at one time.

Experiments at Cornell show that best results are secured with gladiolas when the bulbs are procured not very far away—which is another good reason why you may well get your bulbs from us, here in the heart of New England.

In cutting blooms use a sharp knife and leave at least two or three leaves on the plant.

When the leaves turn brown in the fall, lift the bulbs, dry them in the sun, and after removing the old shrivelled bulb, store in a cool dry place where they cannot freeze.

The following varieties are some of the most beautiful. They will delight the eye and gladden the heart of any flower-lover.—**Please Order Early.**

For a ready-mixed assortment, we especially recommend the following:

Exonian Mixture. A good assortment of beautiful varieties. 25c per doz.; 50 bulbs for \$1.00; \$1.50 per 100.

Good-As-Grow Mixture. A very good selection of varieties. Smaller bulbs than Exonian Mixture, but guaranteed to bloom. 50 bulbs for 50c; 100 bulbs for \$1.00.

On all bulb orders amounting to \$1.00 we pay the postage. Otherwise add 5c for each 12 bulbs.

Six bulbs of one variety for one-half the dozen price.

Small but flowering size, bulbs at $\frac{1}{2}$ the price of full-size bulbs.

HARDY PERENNIALS

It matters not how small your garden, nor whether you own your own home or not, every flower lover should have some perennials. They are a great source of pleasure, requiring very little work, and yielding an abundance of flowers in great variety of form and color. Buy some of these especially choice varieties and you will be relieved of planting seeds or annual plants each year, and at the same time you may have flowers to admire in the garden and flowers to cut for the house.

If you are not familiar with the varieties and care to have us, we shall be pleased to send you an assortment of some of the best kinds.

Those varieties marked * are suitable for rock-garden planting if desired.

Except where otherwise noted, we can supply the following list of plants at 20c each; \$2.00 per doz., comprising not less than six plants of one variety. (By mail, 25c each; \$2.20 per dozen.)

BEARDED IRISES

Commonly, though erroneously, called German Iris. These May-flowering, vigorous-growing plants thrive in well-drained, sunny spots. See them in bloom and you will know at once why they are increasing in popularity each year. In planting, barely cover the roots, and mulch the first Fall to prevent heaving.

Iris may be transplanted in the Spring, in the Summer or in the Fall—in short almost any time when the ground is not frozen.

Our stock of Iris is large, and a visit to our nurseries at blossoming time will well repay any who like to see them in bloom. We shall be pleased to have you call.

SPECIAL OFFERS BEARDED IRISES

Japanese Iris

JAPANESE IRIS

As garden-lovers are getting to know the Japanese Iris they are becoming very popular. This is deservedly so, for they are truly beautiful. They should NOT be planted in low, damp places. While they like plenty of moisture in May and June, before blooming, they must have good Winter-drainage.

In addition to the varieties listed here, we have other beautiful kinds which we offer at 50 each.

Orders filled in the Spring, Summer, and early Fall.
35c each; \$3.50 per doz.

MOTHER'S DAY

Sunday, May 10, 1931

Why not ask us to send a flowering shrub, some gladiola bulbs, a tree, or some hardy flowering plants—such as phlox, larkspur, or the like, to Mother for Mother's Day? We shall be glad to attend to it.

The fragrant Evergreen Daphne (Page 14) with its succession of bloom throughout the season would be much appreciated.

TREES AND PLANTS FOR THE NEW ENGLAND ORCHARD AND GARDEN

We offer good, clean, hardy and healthy stock of the best varieties for New England.

Direct selling on our part and direct buying on yours eliminate the commissions paid to agents and give you the benefits of this saving.

FALL PLANTING

Each Fall the number and volume of our sales exceeds that of the preceding Fall. Of course, Fall is the season to plant the bulbs which give so much pleasure in the Spring (tulips, crocuses, etc.), and the best time to set peonies, as well as a good time to plant many other things. For a list of what you can plant in the Fall, see the following, and see our Special Fall Planting Circular which will be ready in the Summer.

What you don't plant this Spring, plant in the Fall, and send your order to us.

WHAT YOU CAN PLANT IN THE FALL

September and October

Peonies	Raspberries
Irises	Blackberries
Lemon Lilies	Rhubarb
Bleeding Heart	Perennials

October and November

Apple Trees	Shade Trees
Grape-Vines	Shrubs

GARDEN FURNITURE

Arbors, benches, garden houses, seats, chairs, trellises, etc. By arrangements with a nearby manufacturer we are able to furnish these things all set up and painted, or in sections, painted and ready to erect.

Further particulars on request.

Attractive Trellises, \$2.00 each. Single lots, \$2.25, by express; 2 or more, \$2.00 each.

Picture two or three trellises around your home, covered with our Dr. Van Fleet, Climbing American Beauty, or Paul's Scarlet Climbing Rose.

We shall be glad to supply you.

VIGORO

**A SWIFT & COMPANY PRODUCT, ESPECIALLY
PREPARED FOR LAWNS, GARDENS, FLOWERS
SHRUBBERY, TREES. CLEAN, ODORLESS
EASY TO APPLY**

Vigoro is recognized as one of the best complete, all-around fertilizers on the market. It will give good results on everything you grow. We can supply it in

5 lb. cans	50 lb. bags
25 lb. bags	100 lb. bags

For the convenience of our patrons, we are prepared to apply fertilizers on lawns, etc., with the use of a machine. Or we will rent a machine to those who prefer to use one themselves, or have their own man use it.

PRUNING SERVICES

We are Registered Arborists with the Forestry and Agricultural Departments of the State of New Hampshire and are prepared to prune orchard and shade trees within convenient distance of Exeter.

Much damage can be done to trees and shrubs by injudicious pruning. We suggest that you give this careful consideration and employ trained men.

DELIVERY AND PLANTING SERVICE

Wherever desired, we are glad to attend to the planting of such shrubs, trees, plants, etc., as we may furnish any of our customers within convenient trucking distance of Exeter. Our trucks make several trips to Portsmouth, Manchester, Concord, Dover, Rochester, Newburyport, Haverhill, Amesbury, York Harbor, and other nearby points in Maine, New Hampshire and Massachusetts each season. Estimates gladly furnished on request.

SPECIAL OFFER

GLADIOLA BULBS FOR AN 8-FT. BORDER

100 Gladiola Bulbs planted 5 inches apart will plant a bed about 4 ft. square, or 2 ft. wide and 8 ft. long, or a bed about a foot wide and 16 ft. long.

Many people when we say "100 bulbs" think, "Oh, that's too many." But who can't find room for a bed 1 ft. wide and 16 ft. long, or room for two or three beds of shorter lengths?

Our EXONIAN MIXTURE is made up of very pretty varieties, in good assortment, taken from our list on pages 25, 26, 27. 100 first size bulbs, \$1.50 postpaid.
